Learn more about the

WasteNot Project

and where to recycle in the Flathead at
www.wastenotproject.org

Working to reduce waste and increase recycling in the Flathead for since 1992.

Fix-It Flathead is a new offshoot of our 24 years strong WasteNot Project. Often it is easier to throw an item away than to find someone who can fix it. We aim to change that.

Why Repair?

Repair Is Better Than Recycling

Making things last longer is both more efficient and more cost effective than mining them for raw materials.

Repair Saves You Money

Fixing things is usually cheaper than replacing them. Doing the repair yourself saves even more money.

Repair Teaches Engineering

The best way to find out how something works is to take it apart.

If You Can't Fix It, You Don't Own It

Repair connects people and devices, creating bonds that transcend consumption.

Repair is Sustainable

It keeps your stuff in use, out of the landfill.

Do you know anyone you think should be mentioned in this guide? Help us out with suggestions of your favorite repair shops. Has someone on this list gone out of business? Let us know.
